

## Growth Chains E-Newsletter 2008 Specifications

### Materials Submission

If you have a multiple-product advertising package with NRN, it is recommended that you send materials for each piece under separate cover (ex. e-mails) **labeled with the newsletter name, insertion date and ad position or the site materials labeled with the position and the run time.**

This will expedite the process of getting your information online as quickly as possible. (For example: one e-mail might contain your ads for the site, a second email might contain your information for a product page). We also recommended that you gather all necessary materials and send them when you have all the requirements. Sending materials separately increases the chances that something will be missed.

NOTE: If you are creating a vanity URL for use with your newsletter placement, it will need to be available 2 weeks prior & 4 weeks post newsletter launch.

### Space & Specifications

The following lists all advertising slots available on the e-newsletter. Your salesperson will work with you to determine actual available dates for your desired placement(s).

Description/Location	Ad Specs	Image Specs	Text	Formats/Animation
